Workout Tracking Chart

Intermediate, Home, Build -- Weeks 5 thru 8

Date: _____

Time: _____

Print out a copy of this chart to track your strength training workouts. Document the exercise, sets, reps and intensity level you actually performed.

Plan				
Muscle Group	**Exercise**	**# of Sets**	**# of Reps**	**Intensity Level**
Quadriceps	RB Extension	2	10	5 to 7
Chest	RB Fly	2	10	5 to 7
Hamstring	Lunge	2	10	5 to 7
Back	RB Lat. Pull Down	2	10	5 to 7
Calves	Stair Calf Raise	2	10	5 to 7
Shoulders	RB Shoulder Press	2	10	5 to 7
Abdominal	Leg Raise	2	10	5 to 7
Biceps	RB Concentration Curl	2	10	5 to 7
Lower Back	Superman	2	10	5 to 7
Triceps	RB Triceps Push Down	2	10	5 to 7

Actual			
Exercise	**# of Sets**	**# of Reps**	**Intensity Level**

Tips:

Alternate exercises: Feel free to change out any exercise as long as it belongs to that particular muscle grou

Rep: When an exercise has progressed through one complete range of motion and back to the beginning, one repetition has been complete

Set: This is a series of reps done without rest

Rest: Rest for 30 seconds to 1 minute between each set

Intensity level: Use a scale 1 to 10. **1** = sitting on the couch. **5** = mid-level exertion. **10** = max resistance while still using correct form

Form: When handling any weight, you should concentrate on the primary muscle or muscle group you are using while lifting and lowering the weight slowly and deliberatel

Tempo: Use the count of 2 when exerting effort against resistance and a count of 4 when lowering the weigh
